

Product Bulletin and Application Guide

BBJ Mold and Mildew Remover Disinfectant/Cleaner™

Broad Spectrum Disinfectant/Cleaner that Removes Harmful Mold and Mildew. (EPA Reg. No. 1839-83-67212)

DESCRIPTION

BBJ Mold and Mildew Remover Disinfectant/Cleaner™ combines the germ killing ability of a disinfectant with a cleaning agent to remove harmful mold and mildew. It disinfects and cleans hard, non-porous, inanimate environmental surfaces such as air-conditioning vents, grilles, diffusers and other hard surfaces where microbial contamination may accumulate. BBJ Mold and Mildew Remover is highly effective against a broad range of disease causing organisms, yet harmless to equipment. BBJ Mold and Mildew Remover is convenient and mild to use without any damaging side effects. Its light citrus scent dissipates rapidly making it a pleasure to use. It will not stain or blemish most fabrics.

APPLICATION

Unsightly black mold streaks on walls and ceilings growing out from air vents. Return grilles covered with black and green mold. Diffusers and other exterior air-conditioning components caked with dirt and microbial contamination. These are sights that are all too often encountered in all types of commercial buildings today. To eliminate these persistent and pervasive problems, a better solution is finally here.

BBJ Mold and Mildew Remover is specially formulated to clean and disinfect walls, floors, and other surfaces where mold and mildew grow. It is ideal for cleaning and disinfecting exterior system surfaces, internal system surfaces to be treated and rinsed off, and areas where a “knock down” of contamination is necessary before starting work. It is also handy to assure contamination is not moved from job to job by spraying tools, shoes, gloves, etc.

FEATURES and ceilings

- Eliminates mold and mildew from vents, grilles, diffusers, walls
- Kills broad range of disease causing organisms
- Convenient and mild to use without any damaging side effects
- Disinfectant, deodorizer, cleaner
- Bactericidal, Fungicidal, Virucidal, Mildewstat, and Tuberculocidal
- Kills harmful germs on dozens of hard surfaces
- EPA Reg. No. 1839-83-67212
- Authorized by USDA for use in federally inspected processing plants
- Light citrus scent dissipates rapidly

- Available in convenient ready-to-use 32 oz. sprayer and one gallon refill sizes
- Biodegradable (Test Method 405.1)

PROPERTIES	pH:	11.3
	Specific Gravity:	1.014
	Appearance:	Clear liquid, straw tint
	Odor:	Mild, light citrus
	Flash Point:	Not combustible
	DOT Shipping Label:	None

DIRECTIONS Remove gross filth or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and remain wet for 10 minutes. No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. The product will not leave grit or soap scum. Read label directions carefully before using product.

SAFETY DATA Before using product carefully read label information and Material Safety Data Sheet.

PACKAGING	32 oz. spray bottle (12 per case)	620-000
	1-gallon refill bottle (4 per case)	611-000
	5-gallon container	650-000
	55-gallon container	655-000

BBJ RELATED ***BBJ MicroBiocide***[®] is highly effective in controlling and inhibiting the growth of

PRODUCTS active microorganisms such as gram positive and gram negative bacteria, algae, mold and other fungi that grow in HVAC/R systems for up to six months.

Power Coil Clean[®] is a non-caustic, non-corrosive heavy duty coil cleaner that safely cleans and deodorizes evaporator coils, condenser coils, heating coils, window units, air filters, blowers, and other dirty HVAC/R components without damaging metal surfaces.

Micro Coil Clean[®], with its highly effective detergent-based formula containing specially engineered surfactants, is specially formulated for preventative maintenance use to remove soils and deposits from cooling coils without damaging metal surfaces.

FreshDuct Odor Eliminator[®] encapsulates odors at the source,

not just cover them up. Its advanced technology destroys odors on contact to freshen and deodorize air ducts, basements, attics, crawl spaces and other areas prone to odors.

BBJ Spray Disinfectant/Cleaner™ combines the germ killing ability of a disinfectant with a cleaning agent. It disinfects and cleans hard, non-porous, inanimate environmental surfaces such as air-conditioning vents, grilles, diffusers and other hard surfaces where microbial contamination may accumulate.
