

Oxine is distributed by

OXINE®

Simply the Best

OXINE® is recognized internationally as the premier sanitizer for water treatment, food processing, HVAC and other industries. OXINE® is a highly refined blend of Oxychloro species that, when activated, generate chlorine dioxide, a well known odor destroyer, sanitizer and disinfectant. One of OXINE's trademarks is its low toxicity and excellent safety rating by the EPA.

Oxine® comes in a wide range of sizes from 3.2 oz to 55 gallon

THE BENEFITS OF OXINE

- Broad Spectrum Activity
- Effective pH of 1-10
